## AS6404T

A comprehensive 4 bay NAS equipped with an Intel Celeron (Apollo Lake) quad-core processor for powerful output. Economical and perfect for both home and personal use.

- Enhanced CPU and GPU provides comprehensive performance upgrades
- 8 GB of expandable dual-channel memory
- Utilizes the latest HDMI 2.0 and USB 3.0 Type-C specifications
- Unique WOW (Wake-on-WAN) function provides flexible power control and access

Incredible Value

3 year warranty

## Apollo Lake Processor Maximized Computing Power

The all new AS6404T is equipped with the Intel Celeron (Apollo Lake) sixth generation 14nm process built quad-core processor. It features overclocking to 2.3GHz and overall performance that is enhanced by 30% when compared with previous generations, satisfying the needs for 24/7 access in small business environments.

CPU PERFORMANCE +30%

GPU PERFORMANCE +30%

## Data Protection Starts with Storage

ASUSTOR understands that your data is priceless, therefore ASUSTOR NAS provides different RAID Volume options, giving your data various levels of protection from the moment it is first stored on the NAS. We recommend you plan your storage protection based on your NAS model and number of hard disks. Data protection has never been so simple.

	Single	JBOD	RAID 0	RAID 1	RAID 5	RAID 6	RAID 10
Minimum number of disks	1	2	2	2	3	4	4
Faulty Disks Tolerated	X	X	X	1	1	2	2
Increased System performance	X	X	V	X	V	V	V
Maximum use of Storage space	V	V	V	X	X	X	X

## Comprehensive Backup Solutions

The AS63 /64 provides over 12 different backup options and is connected to a variety of public cloud storage services including Amazon S3, Dropbox, Google Drive, OneDrive, Box.net, HiDrive, Ralus, WonderBox, xCloud and CrashPlan. You can also use FTP Explorer, USB external hard drive enclosures, external hard drives and local backup to ensure proper backup for your data. No matter if you are using Windows, Mac or Linux, ASUSTOR provides the proper tools for your backup needs.

## WOW (Wake on WAN) Always on Standby

Want to access the data on your NAS at any time, but worried that leaving it powered on for a long period of time will result in costly power bills, wear and tear on your hard disks and NAS or that you will become the target of hackers? ASUSTOR has provided the AS63/64 series devices with two types of unique network wake (WOL/WOW) functions easing all of the doubts mentioned above! WOL (Wake on LAN) allows you to wake the NAS from sleep mode or when its powered off as long as you are in the same network. WOW (Wake on WAN) allows you to enable all NAS services via the Internet, providing added flexibility for powering on/off the NAS and data access. These two types of network wake functions allow you to save power, extend the life of your NAS and hard disks, and lower your chances of being randomly hacked, ensuring data security.

## Exclusive MyArchive Cold Backup Technology Unlimited Capacity Expansion

MyArchive cold backup technology turns NAS hard disks into removable storage archives. Directly insert a MyArchive hard disk into the NAS to easily access, backup and share terabytes of content.

## MyArchive

- Saves power during system standby
- Create an unlimited number of MyArchive hard disks
- Utilizes built-in SATA 6 GB/s interface for faster data transfers
- Compatible with add-on NFS/EXT4/HFS+ file system devices
- Supports AES 256-bit encryption
- Decryption via physical USB key

## Multi-Layered Protection from the Outside in

ASUSTOR NAS ensures data security by creating an in-depth data protection plan that protects your data from the outside in. Utilization of a multi-layered deployment scheme allows for the achievement of active network, system and data protection.

### Network Attack Protection

- Firewall
- ADM Defender

### Access Control

- File/Folder/App Isolated
- 2-Step Verification

### Secured Data Transmission

- VPN connection
- SSL certificate connection
- Automatic logout

### Internal Data

- MyArchive Offline Backup
- AES-256 folder encryption
- Anti-virus software

## Comprehensive Surveillance System

The powerful ASUSTOR NAS provides optimal reliability for home and SMB users looking to set up a surveillance system. 4 free camera channels are offered, making it an extremely cost-effective surveillance solution for users with smaller demands. For users with larger demands, the number of camera channels can be expanded up to 36 via purchasable camera licenses. After installing Surveillance Center and its corresponding mobile app AiSecure, users will also be able to stream live surveillance feeds to their smartphones while on the go, keeping an eye on their most valued assets from anywhere.

### 5 Steps 60 Sec

- Start quick installation wizard
- Automatic camera search
- Add cameras with just one click
- Configure video format
- Configure recording schedule

## Created for the Digital Home

ASUSTOR NAS allows you to enjoy thrilling digital entertainment at any time. Via the built-in HDMI port and various multimedia Apps the NAS can be connected directly to ultra high resolution TVs and players. Enjoy multimedia with family and friends or use the UPnP multimedia server to stream your favorite media to compatible computers and mobile devices.

## Integrates a Variety of Enterprise Applications

ASUSTOR's snapshot technology provides almost instantaneous creation of snapshots. It saves a significant amount of time and storage capacity when compared with traditional LUN backups. Should files become damaged or corrupted, the simple and intuitive interface allows administrators to quickly restore data, completing disaster recovery in the fastest time possible and providing uninterrupted service.

## Mobile Apps

ASUSTOR's exclusive Cloud Connect technology allows you to connect to your NAS from anywhere with your Mobile device in order to access and share your files. ASUSTOR mobile apps provide pass code lock functions in order to protect your privacy and data. You can also make use of HTTPS connections for even more added security.

# Hardware Specification

AS6404T

Processor	Intel Celeron J3455 Quad-Core 1.5 GHz (burst up 2.3GHz)
Memory	8GB SO-DIMM DDR3L (Expandable. MAX. 8GB)
Internal Disk	4 x SATA3 6Gb/s; 3.5"/2.5" HDD/SSD
Network	Gigabit Ethernet x 2
External Device Interface	USB 3.0 x 4 (Type A x3, Type C x1)
Dimensions (HxWxD)	185.5(H) x 170(W) x 230(D) mm
Weight	2.9 kg / 6.39 lb
Power	External Power Adapter : 90 W
Operation/Disk Hibernation/ Sleep Mode(S3)	24 W / 11.2 W / 0.44 W
Volume Type	Single disk, JBOD, RAID 0 / 1 / 5 / 6 / 10
HD Display	HDMI 2.0 x 1

- A. Power LED Indicator
- B. System Status LED Indicator
- C. Hard Disk LED Indicator
- D. Network LED Indicator
- E. USB LED Indicator

- A. USB 3.0 Type-C Port
- B. System Fan
- C. HDMI Port
- D. USB 3.0 Type-A Port
- E. RJ45 Port
- F. S/PDIF Port
- G. Reset Button
- H. DC Input
- I. K-lock

## Software & Features

### Operating System

- ADM 3.2 Onwards
- Supports Online Firmware Updates
- Built-in App Central for Various Apps

### Supported OS

- Windows XP, Vista, 7, 8, 10, Server 2003, Server 2008, Server 2012, Server 2016
- Mac OS X 10.6 Onwards
- UNIX, Linux, BSD

### Access Control

- Maximum Number of Users: 4096
- Maximum Number of Groups: 512
- Maximum Number of Shared Folders: 512
- Maximum Number of Concurrent Connections: 512
- Supports Windows AD
- Supports Windows LDAP

### File Explorer

- Web-based File Management
- ISO File Mounting
- Share Links
- Task Monitor
- Browse Files on Local PC
- Thumbnail Previews
- Data Access via External Optical Drive
- Supports video playback

### System Administration

- Log Type: System
- Log, Connection Log, File Access Log
- Real-time Online User Monitor
- Real-time System Monitor
- User Quota
- Virtual Drive (ISO Mounting, Maximum 16)
- UPS Support

### Storage Management

- Support Multiple Volumes with Spare Disks
- Volume Type: Single disk, JBOD, RAID 0, RAID 1, RAID 5, RAID 6, RAID 10
- Support for Online RAID Level Migration
- Support for Online RAID Capacity Expansion

### Disk Management

- Scheduled Bad Block Scans
- Scheduled S.M.A.R.T Scans

### External Devices

- Supports USB/eSATA External Storage Devices
- USB Wi-Fi Dongle Support
- Bluetooth Dongle/Speaker Support
- USB Printer Support
- USB DAC/IR Receiver/Keyboard/Mouse Support
- CD ROM Drive/DVD ROM Drive/Blu-Ray ROM

### Energy Control

- Configurable Disk Hibernation and Sleep Mode Wait Time
- Configurable Time Period for Sleep Mode Activation
- Automatic Sleep

### Supported Browsers

- Internet Explore 11 Onwards, FireFox, Chrome, Safari, Microsoft Edge

### Network

- TCP/IP (IPv4 & IPv6)
- Jumbo Frame (MTU)
- VLAN
- EZ Connect
- Wireless Network
- DDNS 和 EZ-Router
- Supports Wake-on-LAN (WOL)

### Network Protocols

- CIFS / SMB, SMB 2.0 / 3.0, AFP, NFS, FTP (Unicode Supported), TFTP, WebDAV, Rsync, SSH, SFTP, iSCSI/IP-SAN, HTTP, HTTPS, Proxy, SNMP, Syslog

### Security

- AES 256-Bit Encryption
- Firewall: Prevent Unauthorized Access
- Alert Notifications: E-mail, SMS
- Encrypted Connections: HTTPS, FTP over SSL/TLS, SSH, SFTP, Rsync over SSH
- Built-in Hardware Encryption Engine:
- RAID Scrubbing: detects the integrity and consistency of RAID 5 and RAID 6 drive data

### Backup Solutions

- Rsync (Remote Sync) Backup
- Cloud Backup
- FTP Backup
- External Backup

### EZ Sync Manager

- Automatically synchronizes files between a PC and NAS
- Can restore previous versions of files
- Supports file sharing
- AiData now supports accessing EZ Sync files

### Network Recycle Bin

- Share Folder-based
- Maintains Original Directory Structure and File Permission
- One-click Restore
- Supports Scheduled Emptying
- Filtering Rules

### Supported Languages

- Deutsch, English, Français, Italiano, Nederlands, Русский, 日本語, 한글, 简体中文, 繁体中文, Česká, Polski, Svenska, Dansk, Norsk, Suomi, Português, Türkçe, Español, Magyar

### File System

- Internal Disk: EXT4
- External Disk: FAT32, NTFS, EXT3, EXT4, HFS+, exFAT

### ACL

- Provides both Windows ACL and Linux
- ACL permission configuration methods
- Can enable Windows ACL for specific shared folders
- Comprehensive support for Windows' 13 types of advanced permission settings
- Can view Windows ACL permission settings from within ADM
- Supports local users and groups
- Exclusive permission reset function allows users to quickly restore default permissions

### SSD Cache

- SSD-like performance with traditional hard drives
- supports read-only access and read-write cache mode
- Supported Models: AS31/32/50/51/61/62/63/64/70 series

### iSCSI/IP-SAN

- Maximum Targets: 256
- Maximum LUNs: 256
- Maximum Snapshot Versions of a Single LUN: 256
- Target Masking
- LUN Mapping
- ISO File Mounting
- Supports MPIO
- Persistent (SCSI-3) Reservations

### Sever

- VPN sever, SNMP sever, RADIUS sever, Syslog sever, Mail sever, DHCP sever, Web sever, FTP sever, Print sever, Rsync sever

## Featured Apps

- Antivirus
- ASUSTOR Portal (HDMI Local Output)
- Download Center
- FTP Explorer
- DataSync for CloudDrive
- iTunes Server
- VirtualBox
- RADIUS Server
- Mail Server
- LooksGood
- Photo Gallery
- SoundsGood
- Takeasy
- Linux Center
- Surveillance Center
- UPnP Media Server
- VPN Server
- VPN Client

## Mobile Apps

- AiMaster
- AiFoto
- AiMusic
- AiVideo
- AiData
- AiDownload
- AiSecure
- AiRemote
